

ANIMAL CARE BEDDING

***100% All Natural Giant Miscanthus BEDDING
for All Types of Animals***

**Absorbs more odor and moisture than common bedding materials
such as straw, wood shavings or sawdust.**

ANIMAL CARE BEDDING

- 2.0 cubic foot 28 lb bag (expands to 6 cu ft)
- 80 cubic foot 650 lb supersack 26 supersacks/semi-load.
- 15 ton/130 yard bulk trailer loads
- Application rate varies according to animal comfort. Apply the necessary volume for odor control and dry bedding maintenance.

Animal Care Bedding is an eco-friendly, biodegradable 100% all-natural giant miscanthus bedding for all types of animals. Non-allergenic and less dusty than most conventional beddings, it absorbs more odors and moisture than common bedding materials such as straw, wood shavings, or sawdust. It's absorbent characteristics require less bedding and less disposal volume. **Animal Care Bedding** makes an excellent plant/animal based compost fertilizer.

Benefits of ANIMAL CARE BEDDING:

- Supports animal health, comfort and welfare
- Less dusty than most conventional beddings
- Absorbs more ammonia than common bedding materials
- Strong moisture absorbance capacity ensures a dry bedding area for animals
- Insulation effect, which helps prevent animal heat loss in cold weather
- Requires less bedding volume than straw or wood shavings
- Particle size is easy to spread
- Improves cleanliness and appearance of animals
- Improves barn or stable appearance
- Less bedding volume equals reduced labor and disposal costs
- Derived from a natural and renewable source
- Faster biodegradable breakdown when applied to soil in comparison to wood based bedding
- More Fire-resistant than straw or wood based beddings

**Sustainably Grown Giant
Miscanthus Fiber Bedding**
